

ASSEMBLY AND INSTALLATION

INSTRUCTION

Please read carefully and save this instruction, as you may need them at a later date.

CAUTION

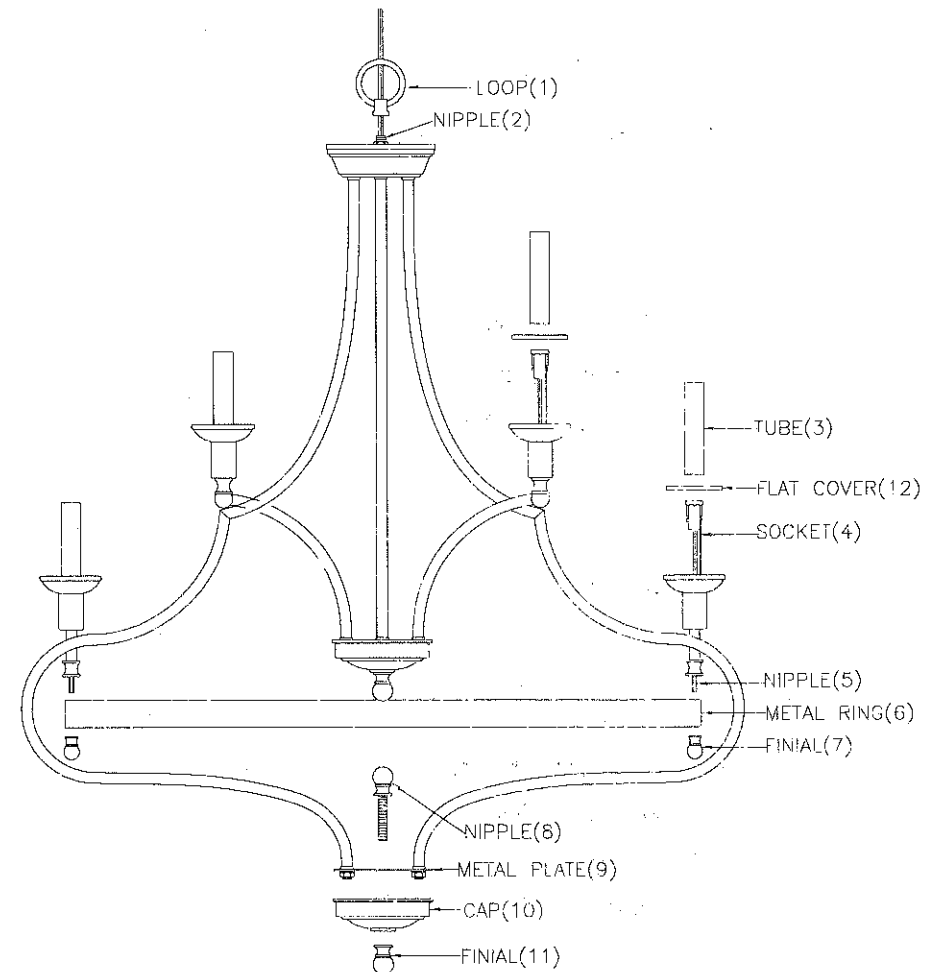

Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock. If you are unfamiliar with proper electrical wiring connections, please consult of a qualified electrician before installing

Installing Step:

Remove the fixture and the mounting package from the box and make sure that no parts missing in the box.

1. Thread the Loop (1) onto the Nipple (2)
2. Uniform distribution attached the arms, aim at the hole on the Metal Ring (6) and put the Metal Ring (6) onto the Nipple (5), then thread the Finial (7) onto the Nipple (5) tightly.
3. Put the Nipple (8) through the Metal Plate (9), and put the Cap (10) onto the Nipple (8), then thread the Finial (11) onto the Nipple (8) tightly.
4. Put the Flat Cover (12) and the Metal Tube (3) onto the Socket (4).
5. Install bulbs: (Bulbs not including in the package)
(Please don't exceed the maximum capacity that recommended on the Sockets)

INSTALLATION IS NOW COMPLETED.
